Diamond Arts Preschool NEWSLETTER

HAPPY "LOVE" MONTH!

We are so excited to show your children how important they are to us, to their preschool friends, to the world, and to their families! We are also excited to have a Valentine's Day Party on Thursday, February 12th, for the last 15 minutes of your child's preschool day! More details in this newsletter! We hope you have an amazing February with your families and we love you all!

Thank you for bringing your children to Diamond Arts Preschool so we can play with them, teach them, listen to them, and watch them daily succeed! I adore and love your children and look forward to seeing them each preschool day! Your children were busy last month with many books, art projects, and dance classes full of winter and polar animals. Here are a few pictures of their adventures!

FEBRUARY THEMES

This month's themes are LOVE, DINOSAURS, AND APPRECIATING MUSIC. We are so excited to play, learn, dance, and sing during our LOVE month of February! We will sing songs and read books that go along with our themes and challenge our students with our circle time! We also will keep exploring their personal skills in dance and art along with having fun learning about new letters numbers, shapes, and more with the piano and other instruments!

LOVE!

We will spend time this month in our circle time, our lessons, and our dance classes learning about all things LOVE! We will play games and sing songs that help us think of all the things we can do to show love to others. We will practice being kind to our preschool friends and will have homework of showing love at home! We will dance to songs about love along with valentine educational games, social games for sharing and making friends!

DINOSAURS!

We will have fun with writing, scissor skills, coloring, and craft projects every day having to do with dinosaurs and Valentine's Day. We will spend time on the popularity and childhood fascination of dinosaurs! The older 4 and 5 year olds will have extra classwork assignments that go along with our themes in a more advanced approach.

APPRECIATING MUSIC!

We are going to explore more songs while we learn about the instruments in an orchestra! We will spend more time in the tap class and learning more about our gross motor skills that make us more coordinated and make dancing more fun. Our recess time is full of fun and coordination. We will continue with our recess social time so the students continue to understand how to have fun with many children in one place and learn how to care if their friends have fun.
