DIAMOND ARTS WELLNESS PROJECT

Why a non-profit?

For 27 years, Diamond Talent Productions, Inc. has been an artistic home for students and families of all ages to create community and friendships and find support systems when their dreams take them beyond performing to become successful professionals in health and fitness, medicine, journalism, business, education, entrepreneurship, and in parenting. We have always been a safe place for students to express themselves and become well-rounded and kind human beings.

As a non-profit, we want to provide Scholarships for the many needs that our students have to pursue their dreams in the performing arts and in life. Our results have shown that Diamond Alumni can have professional National & Broadway careers in the performing arts as well as great reputations in other career fields. We can also accept performing arts grants and sponsorships to create more high level productions and expand our involvement and service for our community.

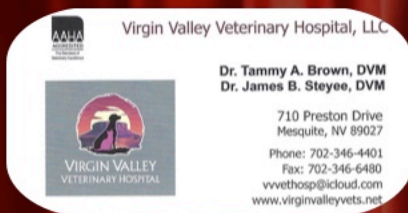

Becoming a non-profit gives us the opportunity to expand our mental and physical health resources through our performing arts training. Performing Arts education has been proven to enhance physical, emotional, and mental wellness.

Diamond Arts Wellness Project (DAWP) is a non-profit organization dedicated to mental health and wellness of children and teens. Our mission is “We transform lives and communities through the power of the performing arts”.

We want to thank our parents and students for their support through the transition this past year. We look forward to what Diamond Arts can create for this community and all of its inspiring and talented youth.

Thank you to our Diamond Arts Board Members and Volunteers for their involvement and support for the future of Diamond Arts.

Thank you to this year's Diamond Arts Sponsors!

Hillyard Family Freedom

It is thanks to your support that we can continue to produce professional level performances and mental and physical health resources to the Diamond Arts students.
